

35th CTEF Annual International E-Conference

On

Re-imagining Learning and Beyond...

Date: 19th & 20th December, 2020

Organised by

Council for Teacher Education Foundation, Assam Chapter

With Technical Support of

Gratia Technology Pvt. Ltd.

About CTEF and CTEF-Assam:

The Council for Teacher Education Foundation (CTEF) is a professional organization of teachers from Elementary to Tertiary level in general and Teacher Education in particular. CTEF was established in 1985 in Bhopal by Founder President Dr. Gulab Chaurasia who was an eminent Educationist, Teacher Educator and Global Speaker. The prime objective of CTEF is to develop competency, resourceful & skilful teachers with professionalism mindset through various Teacher development Programs. With a large network of teachers, CTEF attained International Status in 2009 with 24 National and 3 Overseas Chapters functioning actively throughout the year. Under the strong leadership of National President, Dr. K. M. Bhandarkar, International Secretary General, Prof. Nilima Bhagabati, National Treasurer, Dr. SD Singh, Secretary Legal affairs, Dr. Ushosi Guha, Secretary, Media and communication, Dr. Jasvir K. Chahal and Asst. Secretary General Dr. Jignesh B. Patel, CTEF is a leading professional Organization of teachers in the country. The CTEF-Assam is an affiliated chapter of CTEF was established in 2001. Presently under the leadership of Chairman CTEF-Assam, Prof. Nilima Bhagabati along with a dynamic team of executive body members putting their best service in the educational sector of the state.

Concept Note:

Every child has the right to an education with learning outcome. Providing every young person, regardless of their background or circumstances with great learning experiences throughout their growing stage requires that we reimagine an entirely new education system-one that designs education

with equity keeping the learners at the centre. Our New Education Policy 2020 is one way that education has been 'reimagined' and leaning into those opportunities where young people engage in great learning, learning that is joyful, meaningful and relevant to every individual from the formative stage to the higher level- regardless of what disruptions come their way.

In this 21st century globalised world learning leans more towards skills and technologies, but simply infusing technology into our traditional pattern of teaching and learning won't solve the problems. At this juncture, "Reimagining Learning" is the key to open the door of limitless possibilities, "Beyond". Taking the opportunities technology provides, learning has to be personalized in a way that will position our students to succeed in a world that at present requires collaboration, critical thinking, adaptability, grit and perseverance to make the learning process more effective and fruitful. To help to ensure holistic development of all students, it is the need of the hour to reimagine curricula, teaching and assessment practices and redefining the role of teachers and students in the learning environment. A big challenge awaits us no doubt but if all students, parents, educators and community partners work together for systematic growth and implementation of our New Education Policy 2020, it will definitely bring about transformation and innovation to meet the various requirements and needs of our fast growing Indian nation.

In this International E-Conference, the various areas of Higher Education, Secondary Education and Teacher Education as per New Education Policy 2020 and beyond will be discussed, deliberated and presented by the Panellists, Resourceful Academicians, Educational Administrators, Policy Implementers, Invited Speakers and Stakeholders. It is hoped that the outcomes of the two days virtual deliberations and discussions will lead to constructive avenues for translating the Conference theme into action.

Sub-Themes:

- Enhancing Youth Employability through Holistic and Multidisciplinary Approach in Higher Education
- Effective Learning Outcome: Creating Stimulating and Joyful Learning in School Education.
- Rebooting Teacher Education for New Generation of Learners.
